THE OHIO STORM.

Great Damage and Loss of Life Near Kenton and Forest.

CLEVELAND, Ohio, May 15.—A Kenton (Ohio) special to the *Leader* says: One of the most terrible and damaging storms ever known in this section of the country passed over the northern part of this county last night about 11 o'clock, and its path is marked with widespread destruction and death. The storm commenced on a farm known as the Whiteside farm, about eight miles north of the city of Kenton. It is said a new brick two-story house, which now lies in ruins. From the point the storm moved eastward, destroying life and property. The orchard of Mrs. Ziegler was nearly destroyed, and members of their family badly hurt; William McElvee was struck by lightning and instantly killed; a church, known as Higgin's, was partially destroyed; the school house was shattered, and the school house in the center of Jackson township was entirely destroyed. The damage cannot be estimated, as it has not yet been made.

"The Herald" says editorially: "Who shall be the next to regret the loss of the life of the members of the Association, but at the Kentucky Derby was won yesterday in faster time than ever before. Ben Ali was the record breaker and the time was 2:37 1/2."

THE RACE'S RECORD.

LOUISVILLE, May 15.—The weather was cool and fair, but the track was stiff on account of last night's rain. The attendance was very good. In the first race, for the Alexander stakes, five-year-old Duke of Bourbon was by a length; Potson second; Stayover third; time 1:01 1/2.

In the second race, one and three-eighths miles, Louisa won by a short head; King George second; Stayover third; time 2:28 1/2.

CONLEY-ASHTON FIGHT.

A stinging Match stopped by the Sheriff.

IRVING, N. Y., May 15.—The Ashton-Couley fight to-night was stopped by the sheriff in the middle of the third round, when the two boxers had fought a draw, through interferences of the audience, but decided that Ashton had made the most clean hits. Desperate hugging and slugging characterized the entire struggle, and the spectators were shocked at the violence of the blows.

In the fifth race, one and one-eighth miles, Endurer won by two lengths; Export second; Faustini third; time 1:55.

AT FOREST AND VIGNEY.

The storm here last night was one of the most severe that ever visited the section of the country. It came up suddenly about ten o'clock, the inky black clouds being livid with a brilliant light, which made the atmosphere brilliant, and the wind was terrific. The storm accompanied the wind in the vicinity, and it was a dull roar in the distance and then the cyclone burst, and the level plain on the east side of the track was a scene of a big tree, torn it up by the roots and flung it across the road. One limb struck the locomotive and the car was derailed in two; the other limb fell on the platform of the first car and demolished them; telegraph poles came downing at the same time; rocks and bushes were thrown through the air in various directions; houses were smashed to pieces, cracked and splintered, and glass flew in every direction. The train kept on the rails, and the engineers, applying the air-brakes, soon brought it to a standstill. The passengers

were all safe.

PAROXYSMS OF FEAR,

but the railway men kept fairly cool and the men took the switch and kept on in restoration of confidence. The storm and the air was still filled with flying branches and stones, while the glare of electricity illuminated the clouds in the horizon of the ocean.

Though there was scarcely a foot of glass in coaches that was not mashed, it is remarkable that very few passengers were injured. G. C. Bow, timber dealer, had a piece of glass driven under his eye, and a large eye with such force that it was literally cut out.

AN ACCIDENTAL ALDERMAN.

The Jury Agree in the Jackie
Hunting Case.

NEW YORK, May 15.—At 10 o'clock this morning the jury in the Jackie hunting case reached a verdict.

Judge Barrett overruled the motion.

Counsel for the defense then made the opening argument, wherein Byrnes and District Attorney Martine were accused of arranging Jackie's trial in order to save themselves. The defense, however, for the Senate Committee implicated them in compounding a felony. The prisoner, being placed on the stand in his defense, declared that he was not intimate with Byrnes, but denied emphatically having told him, as alleged, that he had received money for his vote. The trial was adjourned for a week, and the jury received no evidence.

Witnesses reviewed the conversation between himself and Byrnes at the latter's house, but denied that Byrnes was there. The jury was given a recess.

CHAP. F.—Hart and wife were

blown from their bed in the second story, and the latter perhaps fatally injured.

ANOTHER ALDERMAN.

The trial of the Jackie

Hunting Case.

NEW YORK, May 15.—Severe

large damage was done to the tracks for an indefinite period, owing to the strike of two hundred cutters several weeks ago, for an eight per cent advance. It is said that the value of mineral factories will probably cease to stop altogether within the next forty-eight hours.

CIGAR MANUFACTURERS FAIL.

SACRAMENTO, Calif., May 15.—Several large manufacturers of cigars have gone into liquidation for an indefinite period, owing to the strike of two hundred cutters several weeks ago, for an eight per cent advance. It is said that the value of mineral factories will probably cease to stop altogether within the next forty-eight hours.

COAL AND IRON.
